You may find yourself scoring low on some of these questions — and that's a good thing. It means you've identified an area to work on. This isn't about where you are right now. It's about improving each month, even if only by one point, because that's how a life beyond your dreams is built.

Answer honestly, based on how your life is actually going on a typical day.

How to Use WB-24

— A compass, not a diagnosis —

WB-24 is a total wellbeing self-assessment designed to help you understand how your life is going as a whole and to support steady improvement over time.

It does not measure distress, illness, or dysfunction.
It measures wellbeing.

WB-24 works best for people who feel ready to reflect honestly on their lives — and to be challenged to bring them to a higher level.

When to Use WB-24

WB-24 is intended to be completed once per month, giving you enough time to work on improvement before your next reading.

It is most useful when:

- you are reasonably stable day to day
- you are not in acute crisis
- you are open to learning from what the scores reveal
- you are ready to experience some discomfort as part of growth

If you are currently overwhelmed, struggling to function, or experiencing significant distress, it's important to focus on stabilisation and appropriate support first.

WB-24 is a growth tool, not a recovery or crisis tool.

Recovery first. Wellbeing second.

How to Answer the Questions

Read each statement and rate it based on how your life is actually going, not how you wish it were going.
Answer honestly, based on how your life usually goes on a typical day.

There are no right or wrong answers.

Low scores are not failures — they are useful information.

Understanding Your Scores

Higher scores indicate stronger wellbeing.

Lower scores highlight areas that may benefit from attention.

Do not treat your score as a judgement of your worth or value as a person — that is never in question.

Success is the fact that you are using this tool: having the courage to face your life honestly, choose a new direction, and prioritise working on yourself.

Tracking Progress Over Time

WB-24 is most powerful when used consistently.

By recording your scores each month, you can:

- see trends rather than snapshots
- notice what improves naturally
- learn which changes actually help
- identify your stuck points

Face the direction you want to travel. Take one achievable step at a time. A life beyond your dreams comes into view.

Build allies. Develop your resources. Proceed with confidence.
